## LAPAROSCOPY COURSE I

### Psychomotor Skills

#### **Objectives:**

Improve participants' laparoscopic psychomotor skills.

Performing good laparoscopic surgery needs advanced psychomotor skills. Camera navigation, hands–eyes coordination, and bimanual coordination are some of the skills to be learned in this course.

#### **Description:**

- 01h00 pm – 01h10 pm: Pre lab session on psychomotor skills (Dr. Joseph Nassif)
- 01h10 pm – 01h50 pm: Pre test on psychomotor skills
- 01h50 pm – 02h10 pm: Set up, Entry and Basics in Laparoscopy (Dr. Dina Chamsi)
- 02h10 pm – 03h50 pm: Hands on psychomotor skills (All Participants)
- 03h50 pm – 04h10 pm: Electrosurgery in Laparoscopy (Dr. Karim Nawfal)
- 04h10 pm – 04h50 pm: Post-test psychomotor skills (All participants)
- 04h50 pm – 05h00 pm: Conclusion

#### **Registration:**

Number of participants 12 (**First come first serve**)
